[9570296763](tel:9570296763) | New Delhi, 110018 | rajkumardev075@gmail.com | [LinkedIn](#) | [Portfolio](#)

Front End Engineer with more than 5 years of hands-on experience in web development, specializing in creating responsive and dynamic user interfaces. Skilled in a range of technologies including **React.js**, **Next.js**, **HTML**, **CSS**, **JavaScript**, **Node.js** and **AWS**. Proven track record of delivering robust, scalable applications and adhering to best practices in **Agile** environments. Passionate about leveraging **AI-driven applications** to enhance performance and drive innovation.

PROFESSIONAL EXPERIENCE:

Senior Associate Consultant

Mar 2022 – Present

Infosys | Gurugram

- Spearheading the development of web applications as part of the Travel and Lifestyle Services team using **microfrontend technology** (One App), improving user load times by 20%.
- Collaborating with stakeholders to align design strategies with business goals and optimize user experiences.
- Following **Agile methodologies** to produce rapid iterations and deliver features that meet client expectations.
- Contributed to the full **SDLC**, including analysis, design, implementation, testing, and deployment.
- **Providing Knowledge Transfer (KT)** sessions to other engineers, assisting them in completing their stories, and facilitating their onboarding process.
- **Reviewing pull requests (PRs)** to ensure coding standards and application quality.
- Participation in the **release of applications to production**, coordinating with cross-functional teams to ensure smooth deployment.

Software Development Engineer

Feb 2020 – Mar 2022

Callsmaster Services LLP | New Delhi

- Led the **full-stack development** of web and mobile applications, including **Chrome extensions** and **RESTful APIs**, using **React.js**, **Node.js**, **Socket.io**, and **React Native** for mobile applications.
- **Dockerized servers** and deployed on **AWS ECS Fargate** and **ECR**, leveraging **auto-scaling**, **CloudFront**, and **S3** for CDN assets, **Redis** for caching, and **AWS Cognito** for authentication.
- Used **Lambda functions** and **EventBridge** for scheduled jobs and implemented **RDS PostgreSQL** databases for secure, scalable data storage.
- Managed CI/CD pipelines with **GitHub Actions**, improving deployment workflows and ensuring continuous delivery.
- Designed and implemented a **role-based dashboard**, improving applications and resources management efficiency.
- Provided **Knowledge Transfer (KT)** to interns, guiding them in development processes and project onboarding.

Project Intern

July 2019 – Dec 2019

Callsmaster Services LLP | New Delhi
